

Senior Project Policy

The Senior Project is a six-semester hour special project performed over two consecutive terms. The Library retains the original copy of successfully completed projects in the Randolph-Macon College Archives, Senior Project Collection.

The original copy must be accompanied by a *Report on the Senior Project and Comprehensive Examination* form signed by all faculty members of the Examining Committee. A librarian will certify the receipt of the Senior Project by signing the original *Report on the Senior Project and Comprehensive Examination* form, which is then submitted to the Registrar's Office.

Senior Projects are cataloged in MaconCat, the library's online catalog, and are available for scholarly use according to the access policies of the library's Special Collections.
